# Design Engineering's index for 1974

## Assembly

Frictional shaft-hub connectors — analysis and applications ... Jan p26
What's new in fasteners ... Jun p37

## Careers and personalities

Designer profile: Don Whittley ... Jan p22
How to capture an engineer ... Jan p68
Designer profile: Ralph Allenby ... Feb p30
Designer profile: Bruce French ... Mar p32
Keeping your job search confidential ... Mar p64
Designer profile: Bob Ferguson ... May p42
Job strategy in a sellers' market ... May p68
Is there enough indigenous engineering? ... Jul p50
Cooling a hot job market ... Jul p108
Coping with the manpower crisis ... Aug p22
You agree — the shortages are real ... Aug p25
You want more indigenous design ... Sep p21
The care and feeding of candidates ... Sep p64
You agree — the boom is on ... Oct. p36
You foresee changes in transportation ... Nov p23
The jumping job market ... Nov p64
Making the machine serve man ... Dec p24

## Drawing office

Digitizers in design engineering ... Feb p22
Pocket-sized calculator is programmable ... Feb p25
Drawing office equipment and supplies buyers' guide ... Feb p33
Metrication — how one Canadian company handles it ... Apr p30
Computer spurs Spar success story ... Jun p26
New interface adds terminal capabilities to desktop calculator ... Aug p31
Designing for the metric conversion ... Oct p32
Metric design: merits and dangers ... Nov p38
You agree — metrication is inevitable ... Dec p29

## Electrical and electronic

Programmable controllers — where and how ... Jan p30
Electric motors and controls buyers' guide ... Jan p38
How ac motor speed is controlled ... Mar p38
What's new in variable speed drives ... Mar p40
Selecting brushes for domestic appliance motors ... Apr p32
Solid state timer breakthrough ... Apr p36
What's new in brakes and clutches ... Apr p45
Permanent magnets for dc motors ... Jun p34

## Fluid handling

Flow meter uses fluidic principle ... Feb p32

## Fluid power

Air logic systems — Part 1 ... Jan p24
Air logic systems — Part 2 ... Feb p28
Air logic systems — Part 3 ... Mar p28
Hydraulic rotary actuator tilts molten steel ladle ... Mar p30
What's new in variable speed drives ... Mar p40
Sizing auxiliary power accumulators ... Apr p40
Air logic systems — Part 4 ... Apr p42
What's new in brakes and clutches ... Apr p45
Hydraulics make for rugged mobile equipment ... Jul p53
Fluidic sensor protects paper folder ... Jul p56
Air motors give cool mechanical power ... Jul p58
Canada's fluid power and controls buyers' guide ... Jul p60
Pneumatic brain controls milling machine ... Sep p30

## Materials

Corrosion and how zinc controls it ... Feb p26
New stainless steel used for 90-ton turbine castings ... Apr p34
P/M makes better PMs ... Apr p39
Answers to your tribology problems ... Apr p48
New method predicts fracture behavior in cast steel ... May p34
Plastics — how to get more from less ... May p36
New high-strength wear-resistant zinc ... May p38
Leaded vinyl quietens aircraft cabin ... May p39
Glass ceramic machines like metals ... May p40
Three plastics combined in door design ... May p41
Extend the life of plastic bearings ... May p44
Process facilitates fabrication of silicon carbide ... May p46
Nylon plus glass yields high strength ... May p47
Thermoplastics as powder coatings ... May p48
Huge FRP tank liner shipped cross country ... May p50
Automatic choke checker molded from PTMT ... May p50
Dispersion strengthened copper ... May p51
Designing for the Age of Scarcity ... Jun p29
Flexible urethane cures at room temperature ... Jun p36
Synthetics are here to stay ... Sep p32
Watch out when selecting thermoplastics ... Sep p38
Cut component costs with wireforms ... Nov. p42

## Mechanical power transmission

Frictional shaft-hub connectors — analysis and applications ... Jan p26
Patented bearing needs manufacturer ... Jan p29
What's new in variable speed drives ... Mar p40
What's new in brakes and clutches ... Apr p45
Answers to your tribology problems ... Apr p48
The case for hydroviscous drives ... Jul p54
Air motors give cool mechanical power ... Jul p58
Design and use of mechanical face seals ... Aug p38
Gear selection: a multi-faceted task ... Oct p40
Mechanical power transmission buyers' guide ... Oct p61
Design around curves with flexible shafts ... Dec p38

## Miscellaneous

Blue flame saves oil, cuts emissions ... Jan p45
Worldwide market seen for container transfer system ... Mar p24
People spiral on and off underground travelling platforms ... Mar p27
Design Engineering Show Preview ... Mar p34
A flexible fuel tank for the Far North ... Apr p44
Bike design captures world honor ... Jun p33
Unit converts wastes to usable energy ... Aug p27
Removing mists by gas stream deflection ... Aug p28
Process equipment profiles ... Aug p32
Canada tools up for the Design Decades — Part 1 ... Sep p23
Canada tools up for the Design Decades — Part 2 ... Oct p53
Automation in action 1974 ... Nov p26
Metrication program: Gossage asks for parliamentary approval ... Nov p40
Interdesign '74: When designers get together ... Dec p32
Stem-Lite success stems from design ... Dec p36
From dregs to riches ... Dec p42

# Design Engineering's index for 1974
